Contents of volume 421

No. 1 (pp 1– 78) published July 23, 1992
No. 2 (pp 79–178) published August 26, 1992
No. 3 (pp 179–276) published September 23, 1992
No. 4 (pp 277–366) published October 29, 1992
No. 5 (pp 367–448) published November 17, 1992
No. 6 (pp 449–538) published December 9, 1992

Aizawa S → Sasano H
Akslen LA, Myking AO: Differentiated thyroid carcinomas: the relevance of various pathological features for tumour classification and prediction of tumour progress 17
Alanen KA, Falkmer UG, Klemi PJ, Joensuu H, Falkmer S: Flow and image cytometric study of pancreatic neuroendocrine tumours: frequent DNA aneuploidy and an association with the clinical outcome 121
Albrecht S → Sturm U
Albrechtsen R → Wewer UM
Aliño SF → Hilario E
Alvarez FJ → Hilario E
Angel CA, Cullen RA, Pringle JH, Lauder I: Vimentin expression by Reed-Sternberg cells in Hodgkin's disease 9
Arps H → Padberg B-C
Ayhan A → Yasui W
Azzoni C, Yu J-Y, Baggi MT, D'Adda T, Timson C, Polak JM, Bordi C: Studies on co-localization of 7B2 and pancreatic hormones in normal and tumoural islet cells 457

Baggi MT → Azzoni C
Ballanti P → Bianco P
Bässler R, Katzer B: Histopathology of myoepithelial (basocellular) hyperplasias in adenosis and epitheliosis of the breast demonstrated by the reactivity of cytokeratins and S100 protein. An analysis of heterogenic cell proliferations in 90 cases of benign and malignant breast diseases 435
Bätge B, Dralle H, Padberg B, Herbay B von, Schröder S: Histology and immunocytochemistry of differentiated thyroid carcinomas do not predict radioiodine uptake: a clinicomorphological study of 62 recurrent or metastatic tumours 521
Baumal R → Thorner PS
Bégin LR: Adrenocortical oncocytoma: case report with immunocytochemical and ultrastructural study 533
Beham A, Ratschek M, Zatloukal K, Schmid C, Denk H: Distribution of cytokeratins, vimentin and desmoplakins in normal renal tissue, renal cell carcinomas and oncocytoma as revealed by immunofluorescence microscopy 209
Bergstrome B → Löhr M
Bianco P, Silvestrini G, Ballanti P, Bonucci E: Paramyxovirus-like nuclear inclusions identical to those of Paget's disease of bone detected in giant cells of primary oxalosis 427
Bier B → Böcker W
Bise K → Haraida S
Blasius S → Edel G
Böcker W, Bier B, Freytag G, Brömmelkamp B, Jarasch E-D, Edel G, Dockhorn-Dworniczak B, Schmid KW: An immunohistochemical study of the breast using antibodies to basal and luminal keratins, alpha-smooth muscle actin, vimentin, collagen IV and laminin. Part I: normal breast and benign proliferative lesions 315
Böcker W, Bier B, Freytag G, Brömmelkamp B, Jarasch E-D, Edel G, Dockhorn-Dworniczak B, Schmid KW: An immunohistochemical study of the breast using antibodies to basal and luminal keratins, alpha-smooth muscle actin, vimentin, collagen IV and laminin. Part II: epitheliosis and ductal carcinoma in situ 323
Bonucci E → Bianco P
Bordi C → Azzoni C
Borisch B, Hennig I, Horber F, Bürki K, Laissue J: Enteropathy-associated T-cell lymphoma in a renal transplant patient with evidence of Epstein-Barr virus involvement 443
Bosari S, Lee AKC, Viale G, Heatley GJ, Coggi G: Abnormal *p53* immunoreactivity and prognosis in node-negative breast carcinomas with long-term follow-up 291
Boscaino A → De Rosa G
Boveri E → Paulli M
Braeckel C → Thiele J
Brinker KH → Edel G
Brömmelkamp B → Böcker W
Bruns J, Kersten P, Lierse W, Silbermann M: Autologous rib perichondrial grafts in experimentally induced osteochondral lesions in the sheep-knee joint: morphological results 1
Burford-Mason AP → Dardick I
Burgers L → Faverly D
Bürki K → Borisch B
Buyssens N → Vandewoude MFJ
Buyssens N → Vandewoude MFJ

Cancellierei A → Trerè D
Cappello N → Pich A
Capron M → Janin A
Carney WP → Dardick I
Chevallier M → Esterre P
Chiusa L → Pich A
Choritz H → Werner M
Coggi G → Bosari S
Courtin P → Janin A
Cullen RA → Angel CA
Czernobilsky B → Lifschitz-Mercer B

D'Adda T → Azzoni C
Dardick I, Burford-Mason AP, Garlick DS, Carney WP: The pathobiology of salivary gland. II. Morphological evalution of acinic cell carcinomas in the parotid gland of male transgenic (MMTV/v-Ha-*ras*) mice as a model for human tumours 105
Dardick I, Ostrynski VL, Ekem JK, Leung R, Burford-Mason AP: Immunohistochemical and ultrastructural correlates of muscle-actin expression in pleomorphic adenomas and myoepitheliomas based on comparison of formalin and methanol fixation 95
David R → Lifschitz-Mercer B
Dedet JP → Esterre P
Deguchi N → Nakanoma T
De Medici A → Paulli M
Denk H → Beham A
Derenzini M → Trerè D
De Rosa G, Donofrio V, Boscaino A, Zeppa P, Staibano S: Multicystic mesothelial proliferation. Immunohistochemical, ultrastructural and DNA analysis of five cases 379
Dharan M → Lifschitz-Mercer B
Dienemann D → Thiele J
Dockhorn-Dworniczak B → Böcker W
Doki Y → Oka H
Donofrio V → De Rosa G
Dralle H → Bätge B
Dürmüller U → Nüsing R

Eckstein FS, Vogel U, Mohr W: Fibrosarcoma in association with a total knee joint prosthesis 175
Edel G, Ueda Y, Nakanishi J, Brinker KH, Roessner A, Blasius S, Vestring T, Müller-Miny H, Erlemann R, Wuisman P: Chondroblastoma of bone. A clinical, radiological, light and immunohistochemical study 355
Edel G → Böcker W
Egger C → Mazzucchelli L
Eichelmann A → Möller P
Ekem JK → Dardick I
Elleder M: Eccrine gland involvement in Krabbe's disease 351
Erlemann R → Edel G
Esterre P, Dedet JP, Frenay C, Chevallier M, Grimaud JA: Cell populations in the lesion of human cutaneous leishmaniasis: a light microscopical, immunohistochemical and ultrastructural study 239
Eusebi V → Trerè D
Ezaki T, Fujii H, Matsuno K, Kawatsu R, Kotani M: Oestrogen retards the development of spontaneous thymomas in BUF/Mna rats 505

Falini B → Thiele J
Falkmer S → Alanen KA
Falkmer UG → Alanen KA
Farnoud MR, Lissak B, Kujas M, Peillon F, Racadot J, Li JY: Specific alterations of the basement membrane and stroma antigens in Human pituitary tumours in comparison with the normal anterior pituitary. An immunocytochemical study 449
Faverly D, Holland R, Burgers L: An original stereomicroscopic analysis of the mammary glandular tree 115
Fehr P → Nüsing R
Fischer R → Thiele J
Flössel C → Sturm U
Frenay C → Esterre P
Freytag G → Böcker W
Fujii H → Ezaki T
Fujii S → Wang D
Fujimoto J → Nakanoma T
Furihata M → Ohtsuki Y
Furui T → Niwa K

Gabius H-J → Kayser K
Gabius S → Kayser K
Garlick DS → Dardick I
Georgii A → Werner M
Gerber H → Mazzucchelli L
Gosselin B → Janin A
Grimaud JA → Esterre P
Großmann H → Sturm U
Gudat F → Nüsing R

Hagemeyer O → Kayser K
Haraida S, Nerlich AG, Bise K, Wiest I, Schleicher E: Comparison of various basement membrane components in benign and malignant peripheral nerve tumours 331
Hashimoto H → Ohtsuki Y
Hata J → Nakanoma T
Hatano T → Shoji T
Heatley GJ → Bosari S
Hennig I → Borisch B
Herbay B von → Bätge B
Hilario E, Rodeño E, Simón J, Alvarez FJ, Aliño SF: Differential uptake of systemic fluorochrome Hoechst 33342 in lung and liver metastasis of B16 melanoma 485
Hindelang C → Mantz J
Hirano S → Oka H
Holland R → Faverly D
Horber F → Borisch B
Horiuchi H → Kuroda M
Hort W → Langes K

Iihara K → Oka H
Iijima T, Sumazaki R, Mori N, Oka K, Nagai Y, Shibazaki M, Takita H, Ogata T: A pathological and immunohistological case report of fatal infectious mononucleosis, Epstein-Barr virus infection, demonstrated by in situ and Southern blot hybridization 73
Imai H → Yasuda T
Inomata S → Yasuda T
Inoue K → Ohtsuki Y
Invernizzi R → Paulli M
Ishida T, Oka T, Matsushita H, Machinami R: Epithelioid sarcoma: an electron-microscopic, immunohistochemical and DNA flow cytometric analysis 401
Ito H → Yasui W
Itoh N → Yamaguchi N
Iwai T → Wang D
Iwata J → Ohtsuki Y

Jacobs R → Thorner PS
Jacobsson B → Lignelid H
Janin A, Torpier G, Capron M, Courtin P, Gosselin B: Immunopathological study of eosinophils in eosinophilic granuloma of bone: evidence for release of three cationic proteins and subsequent uptake in macrophages 255
Jarasch E-D → Böcker W
Ji Z-Q → Yasui W
Joensuu H → Alanen KA

Kaloutsi V → Werner M
Kamel D → Soini Y
Kamiya T → Shoji T
Kasper M → Nüsing R
Kasper M → Stosiek P
Kato H → Sasano H
Katzer B → Bässler R
Kawakita M → Kuroda M
Kawatsu R → Ezaki T
Kayser K, Gabius H-J, Gabius S, Hagemeyer O: Analysis of tumour necrosis factor *a*-specific, lactose-specific and mistletoe lectin-specific binding sites in human lung carcinomas by labelled ligands 345
Kersten P → Bruns J
Kimura N, Miura Y, Nagatsu I, Nagura H: Catecholamine synthesizing enzymes in 70 cases of functioning and non-functioning phaeochromocytoma and extra-adrenal paraganglioma 25
Kindl S → Paulli M
Klemi PJ → Alanen KA
Klöppel G → Löhr M
Kobayashi K → Oka H
Komatz Y → Okada H
Konishi I → Wang D
Koshiyama M → Wang D
Kotani M → Ezaki T
Kraft R → Mazzucchelli L
Kujas M → Farnoud MR
Kuniyasu H → Yasui W
Kuroda M, Horiuchi H, Ono A, Kawakita M, Oka T, Machinami R: Immunohistochemical study on the distribution of sarcoplasmic reticulum calcium ATPase in various human tissues using novel monoclonal antibodies 527

Laissue J → Borisch B
Lam KY: Adrenal tumours in Chinese 13
Lane DP → Soini Y
Langes K, Hort W: Intimal fibrosis (phlebosclerosis) in the saphenous vein of the lower limb: a quantitative analysis 127
Lauder I → Angel CA
Lee AKC → Bosari S
Lehto V-P → Soini Y
Leithäuser F → Möller P
Leung R → Dardick I
Li JY → Farnoud MR
Lierse W → Bruns J
Lifschitz-Mercer B, David R, Dharan M, Czernobilsky B: Small cell carcinoma of the ovary: an immunohistochemical and ultrastructural study with a review of the literature 263
Lignelid H, Jacobsson B: Cystatin C in the human pancreas and gut: an immunohistochemical study of normal and neoplastic tissues 491
Linke RP → Röcken C
Lissak B → Farnoud MR
Löhr M, Bergstrome B, Maekawa R, Oldstone MBA, Klöppel G: Human cytomegalovirus in the pancreas of patients with type 2 diabetes: is there a relation to clinical features, mRNA and protein expression of insulin, somatostatin, and MHC class II? 371
Luther T → Sturm U

Machinami R → Ishida T
Machinami R → Kuroda M
Maeda S → Shrestha P
Maekawa R → Löhr M
Maesawa C, Sakuma T: Microscopic features of the regeneration of white pulp in autotransplanted spleens in rats 41
Magrini U → Paulli M
Mahuran D → Thorner PS
Manabe Y → Ohtsuki Y
Mantz J, Hindelang C, Mantz JM, Stoeckel ME: Vascular and myofibrillar lesions in acute myoglobinuria associated with carnitine-palmityl-transferase deficiency 57
Mantz JM → Mantz J
Marmont F → Pich A
Marrano PM → Thorner PS
Maschek H → Werner M
Matsuno K → Ezaki T
Matsushita H → Ishida T
Matsuyoshi N → Oka H
Matsuzaki O → Sasano H
Mazzucchelli L, Kraft R, Gerber H, Egger C, Studer UE, Zimmermann A: Carcinosarcoma of the urinary bladder: a distinct variant characterized by small cell undifferentiated carcinoma with neuroendocrine features 477
Mechtersheimer G → Möller P
Minamizaki T → Yoshida H
Minato H, Nakanuma Y: Nodular regenerative hyperplasia of the liver associated with metastases of pancreatic endocrine tumour: report of two autopsy cases 171
Miura AB → Yasuda T
Miura Y → Kimura N
Miyata M → Oka H
Mohr W → Eckstein FS
Moll R → Stosiek P
Möller P, Eichelmann A, Leithäuser F, Mechtersheimer G, Otto HF: Venular endothelium binding molecules CD44 and LECAM-1 in normal and malignant

B-cell populations. A comparative study 305
Mori H → Niwa K
Mori M → Shrestha P
Mori N → Iijima T
Mori T → Oka H
Mori T → Wang D
Morii S → Okada H
Morii S → Shoji T
Müller M → Sturm U
Müller-Miny H → Edel G
Myking AO → Akslen LA

Nagai Y → Iijima T
Nagatsu I → Kimura N
Nagura H → Kimura N
Nagura H → Sasano H
Naka Y → Okada H
Nakamoto Y → Yasuda T
Nakamura K → Nakanoma T
Nakanishi J → Edel G
Nakanoma T, Nakamura K, Deguchi N, Fujimoto J, Tazaki H, Hata J: Immunohistological analysis of tumour infiltrating lymphocytes in seminoma using monoclonal antibodies 409
Nakanuma Y → Minato H
Nakashima N → Sasano H
Nanbu Y → Wang D
Navone R → Pich A
Nerlich AG → Haraida S
Niwa K, Yokoyama Y, Furui T, Tanaka T, Mori H, Mori H, Tamaya T: Changes of silver-stained nucleolar organizer regions in mouse endometrial carcinogenesis induced by *N*-methyl-*N*-nitrosourea and 17β-oestradiol 387
Nonogaki H → Wang D
Nuorva K → Soini Y
Nüsing R, Sauter G, Fehr P, Dürmüller U, Kasper M, Gudat F, Ullrich V: Localization of thromboxane synthase in human tissues by monoclonal antibody Tü 300 249

Ochi K → Ohtsuki Y
Ogata T → Iijima T
Ohtsuki Y, Furihata M, Inoue K, Iwata J, Manabe Y, Sonobe H, Ochi K, Seike H, Hashimoto H, Terao N: Immunohistochemical and ultrastructural studies of intraluminal crystalloids in human prostatic carcinomas 421
Oka H, Shiozaki H, Kobayashi K, Tahara H, Tamura S, Miyata M, Doki Y, Iihara K, Matsuyoshi N, Hirano S, Takeichi M, Mori T: Immunohistochemical evaluation of E-cadherin adhesion molecule expression in human gastric cancer 149
Oka K → Iijima T
Oka T → Ishida T
Oka T → Kuroda M
Okada H, Tsubura A, Okamura A, Senzaki H, Naka Y, Komatz Y, Morii S: Keratin profiles in normal/hyperplastic prostates and prostate carcinoma 157
Okamura A → Okada H
Oldstone MBA → Löhr M
Ono A → Kuroda M
Ostrynski VL → Dardick I
Otto HF → Möller P

Pääkkö P → Soini Y
Padberg B-C, Stegner H-E, Sengbusch S von, Arps H, Schröder S: DNA-cytophotometry and immunocytochemistry in ovarian tumours of borderline malignancy and related peritoneal lesions 497
Padberg B → Bätge B
Paulli M, Rosso R, Kindl S, Boveri E, Sirchi M, De Medici A, Invernizzi R, Magrini U: Nodular sclerosing Hodgkin's disease and large cell lymphoma. Immunophenotypic characterization of a composite case 271
Peillon F → Farnoud MR
Pelusi G → Trerè D
Perrone A → Trerè D
Pich A, Chiusa L, Marmont F, Cappello N, Navone R: Argyrophilic nucleolar organizer region counts in multiple myeloma: a histopathological study on bone marrow trephine biopsies 143
Polak JM → Azzoni C
Pringle JH → Angel CA

Racadot J → Farnoud MR
Ratschek M → Beham A
Rocchetta G → Trerè D
Röcken C, Linke RP, Saeger W: Immunohistology of islet amyloid polypeptide in diabetes mellitus: semi-quantitative studies in a post-mortem series 339
Rodeño E → Hilario E
Roessner A → Edel G
Rosso R → Paulli M

Saeger W → Röcken C
Sakakura T → Shoji T
Sakuma T → Maesawa C
Sasano H, Nakashima N, Matsuzaki O, Kato H, Aizawa S, Sasano N, Nagura H: Testicular sex cord-stromal lesions: immunohistochemical analysis of cytokeratin, vimentin and steroidogenic enzymes 163
Sasano N → Sasano H
Sauter G → Nüsing R
Schleicher E → Haraida S
Schmid C → Beham A
Schmid KW → Böcker W
Schröder S → Bätge B
Schröder S → Padberg B-C
Seike H → Ohtsuki Y
Sengbusch S von → Padberg B-C
Senzaki H → Okada H
Shibazaki M → Iijima T
Shigematsu H → Yamaguchi N
Shiozaki H → Oka H
Shoji T, Kamiya T, Tsubura A, Hatano T, Sakakura T, Yamamoto M, Morii S: Immunohistochemical staining patterns of tenascin in invasive breast carcinomas 53
Shrestha P, Yamada K, Wada T, Maeda S, Watatani M, Yasutomi M, Takagi H, Mori M: Proliferating cell nuclear antigen in breast lesions: correlation of c-*erb*B-2 oncoprotein and EGF receptor and its clinicopathological significance in breast cancer 193
Silbermann M → Bruns J
Silvestrini G → Bianco P
Simón J → Hilario E
Sirchi M → Paulli M
Soini Y, Kamel D, Nuorva K, Lane DP, Vähäkangas K, Pääkkö P: Low *p53* protein expression in salivary gland tumours compared with lung carcinomas 415
Soini Y, Pääkkö P, Nuorva K, Kamel D, Lane DP, Vähäkangas K: Comparative analysis of *P53* protein immunoreactivity in prostatic, lung and breast carcinomas 223
Soini Y, Pääkkö P, Virtanen I, Lehto V-P: Tenascin in salivary gland tumours 217
Sonobe H → Ohtsuki Y
Staibano S → De Rosa G
Stary HC: Composition and classification of human atherosclerotic lesions 277
Stegner H-E → Padberg B-C
Stein H → Thiele J
Stoeckel ME → Mantz J
Stosiek P, Kasper M, Moll R: Changes in cytokeratin expression accompany squamous metaplasia of the human respiratory epithelium 133
Studer UE → Mazzucchelli L
Sturm U, Luther T, Albrecht S, Flössel C, Großmann H, Müller M: Immunohistological detection of tissue factor in normal and abnormal human mammary glands using monoclonal antibodies 79
Sumazaki R → Iijima T

Tahara E → Yasui W
Tahara H → Oka H
Takagi H → Shrestha P
Takeichi M → Oka H
Takita H → Iijima T
Tamaya T → Niwa K
Tamura S → Oka H
Tanaka T → Niwa K
Tazaki H → Nakanoma T
Terao N → Ohtsuki Y
Thiele J, Fischer R: Prognostic implications of bone marrow features in chronic myelogenous leukaemia 367
Thiele J, Braeckel C, Wagner S, Falini B, Dienemann D, Stein H, Fischer R: Macrophages in normal human bone marrow and in chronic myeloproliferative disorders: an immunohistochemical and morphometric study by a new monoclonal antibody (PG-M_1) on trephine biopsies 33
Thorner PS, Baumal R, Valli VEO, Mahuran D, Marrano PM, Jacobs R: Production of anti-NC1 antibody by affected male dogs with X-linked hereditary nephritis: a probe for assessing the NC1 domain of collagen type IV in dogs and humans with hereditary nephritis 467
Timson C → Azzoni C
Torpier G → Janin A
Trerè D, Cancellierei A, Perrone A, Roc-

chetta G, Pelusi G, Eusebi V, Derenzini M: Ag-NOR protein distribution correlates with patient survival in stage I endometrial adenocarcinoma 203
Tsubura A → Okada H
Tsubura A → Shoji T

Ueda Y → Edel G
Ullrich V → Nüsing R

Vähäkangas K → Soini Y
Valli VEO → Thorner PS
Vandewoude MFJ, Buyssens N: Effect of ageing and malnutrition on rat myocardium. I. The myocyte 179
Vandewoude MFJ, Buyssens N: Effect of ageing and malnutrition on rat myocardium. II. The microvasculature 189
Vestring T → Edel G
Viale G → Bosari S
Virtanen I → Soini Y
Vogel U → Eckstein FS

Wada T → Shrestha P
Wagner S → Thiele J
Wang D, Konishi I, Koshiyama M, Nanbu Y, Iwai T, Nonogaki H, Mori T, Fujii S: Immunohistochemical localization of c-*erb*B-2 protein and epidermal growth factor receptor in normal surface epithelium, surface inclusion cysts, and common epithelial tumours of the ovary 393
Watatani M → Shrestha P
Werner M, Maschek H, Kaloutsi V, Choritz H, Georgii A: Chromosome analyses in patients with myelodysplastic syndromes: correlation with bone marrow histopathology and prognostic significance 47
Wewer UM, Albrechtsen R: Carcinoma-associated perisinusoidal laminin may signal tumour cell metastasis to the liver 87
Wiest I → Haraida S
Wuisman P → Edel G

Yamada K → Shrestha P
Yamaguchi N, Itoh N, Shigematsu H: The features of glomerulitis in the acute stage of panarteritis nodosa. Developmental process of glomerulitis and correlation between glomerular and vascular lesions 65
Yamamoto M → Shoji T
Yasuda T, Imai H, Nakamoto Y, Miura AB, Inomata S: Significance of fibrils in the formation of the Kimmelstiel-Wilson nodule 297
Yasui W, Ji Z-Q, Kuniyasu H, Ayhan A, Yokozaki H, Ito H, Tahara E: Expression of transforming growth factor alpha in human tissues: immunohistochemical study and Northern blot analysis 513
Yasutomi M → Shrestha P
Yokoyama Y → Niwa K
Yokozaki H → Yasui W
Yoshida H, Yumoto T, Minamizaki T: Osteosarcoma with features mimicking malignant fibrous histiocytoma 229
Yu J-Y → Azzoni C
Yumoto T → Yoshida H

Zatloukal K → Beham A
Zeppa P → De Rosa G
Zimmermann A → Mazzucchelli L
